INTRODUCTIONS

When you get here, wait for everyone to catch up so you can do your introductions together.

Go around the group. On your turn, introduce your Hex by name and look, and tell the group what they know about you.

HISTORY

Go around the group again. When it's your turn, pick one for each of the other hunters:

- You once cast a powerful spell or curse on them. Tell them why, and ask them how it ended.
- They fear your power, or what you might do with it. Ask them why.
- You're madly in love with them. Ask them if they can
- They encourage you to indulge your temptation. Ask them why.
- They keep you grounded, and are unfazed by your displays of power.
- You were part of the same cult, sect, or secret society. Decide together what horrible things you did in the name of power.
- You learned through divination that they're important and you should help them. Decide whether you've told them or not.
- They helped you out when a spell went awry. Tell them what the spell was, and ask them how they helped you.

LEVELING UP

When you have filled all five experience boxes, you level up. Erase the marks and pick an improvement from the list below.

IMPROVEMENTS

- Get +1 Weird, max +3. Get +1 Cool, max +2. Get +1 Charm, max +2.Get +1 Sharp, max +2.

- Take another Hex move, or an additional Rote.
- Take a Haven, like the Expert has, with two options.
 - Take a move from another playbook.

After you have leveled up five times, you qualify for advanced improvements in addition to these. They're below.

ADVANCED IMPROVEMENTS

	Get +1 to any rating, max +3.
	Change this hunter to a new type.
	Make up a second hunter to play as well as this one.
	Mark two of the basic moves as advanced.
	Mark another two of the basic moves as advanced.
	Retire this hunter to safety.
	Erase one used Luck mark from your playbook.
	Gain another two Rotes.
	Choose one advanced Hex move (see below).

ADVANCED HEX MOVES

When you take the "Choose one advanced Hex move" improvement, choose one of these moves. You can never have both:

Apotheosis: You become a terrifying fount of mystical power. Once per mystery, after you suffer loss or harm, you may enter a state where you have both immense power and zero interest in the well-being of other people. While in this state, you can fly, use +Weird to kick some ass instead of +Tough (using innate magic as a 3-harm weapon with whatever properties you choose), ignore the component costs of your rotes, ignore one requirement of every spell you cast with **use magic**, and you have +1 ongoing to do everything. On the other hand, you outright cannot use the protect someone move, you have all the Temptations, and you have to indulge them whenever a good opportunity presents itself. When you try to resist a temptation, roll +Cool. On a 10+, your apotheosis ends. On a 7-9, it ends with you doing something dangerous or cruel. On a miss, it ends only after you harm someone (or something) you love.

Synthesis: You manage to conciliate your dark power with your moral impulses. You lose your Temptation. Whenever you use magic to help out or protect someone, you mark experience. Mark a second experience if you do it at the expense of your own safety.

ROTES (THE HEX)

Whenever you **use magic**, you can decide afterwards that a particular spell is a **rote** that you know. Write down in detail what the spell does, and what it requires. You know how to cast it off the top of your head, and you choose two requirements from this list:

- Magic words and ritual gestures.
- An object of power (wand, talisman, orb, staff, etc) which must be wielded.
- An expendable component such as sulfur, sage, or incense, which must be burned, blown, or scattered during the casting.
- Runes or symbols written or engraved on a surface (which must be prepared).
- A spilling of blood, which inflicts 1-harm upon you or a willing participant.

Give your new rote a name, and decide specifically what the requirements are (which words, gestures, objects, symbols, and procedures are required). Unlike regular **use magic**, a rote's cost and the consequences for failing it are known to you in advance. After you cast it for the first time, treat each rote as a custom move—a specialised version of use magic, which is built with the Keeper. Write down what it does on a 10+, a 7-9, and a miss. Also, a rote is a bit more powerful than a basic **use magic** spell: its glitches are less onerous and its effect may be a little bigger.

Casting a rote requires you to have the needed items at hand and the ability to physically use them. You roll +Weird to cast it, as you would when **using magic** normally.

HOW MANY ROTES?

You start out knowing up to one rote, which you can choose when creating your character or during play. You can learn more by taking improvements—when you do, you can choose the new rote right away or in play.
